

Bristol Energy Cooperative is working with Great Western Air Ambulance Charity (GWAAC) to propose a solar farm at the GWAAC Almondsbury Airbase.

As part of our community consultation exercise, we would like to invite you to our community drop-in event to be held at:

Great Western Air Ambulance Charity Airbase, Almondsbury, BS32 4AG on Tuesday 16th September, 3-7pm.

Together with information about the project, members of the development team will be available to answer any questions you may have. This is also an opportunity to see the airbase and proposed solar site first hand. We look forward to meeting you and hearing your feedback.

If you have any immediate questions about the project, please contact: projects@bristolenergy.coop
